

Controls:

1. Use the left/right arrow keys to roll.
2. Use K to pitch up and M to pitch down.
3. Use Q to yaw to the left and E to yaw to the right.
4. Use left mouse button to release Missile of type 1 and right mouse button to release Missile of type 2. Type 2 missiles when hit on enemies reduces enemy health by a greater margin compared to missiles of type 1 but releasing type 2 missiles reduce the score more than releasing missiles of type 1.
5. Use space bar to drop bombs on enemies. Can you figure out dropping a bomb reduces the score by how much points?
6. Press S to switch different views.
7. Press W to accelerate and B to decelerate.
8. Don't forget to go through the yellow 'hard to see' smoke rings to get bonus score.
9. Be sure to fuel up by passing through green cubes along the way. Long Mission ahead!
10. The red cubes appearing randomly are parachutes. Can you target these moving parachutes and hit them with missiles to gain some bonus points?
11. The black cubes on the ground are the enemies. The enemies throw missiles at you. Make sure to avoid them. Otherwise your plane health decreases by 1.
12. Don't fly too close to the yellow pyramids(a.k.a volcanoes).
